World Tales by Genevieve Aichele and Randy Armstrong (ages 5 and up, Unu

Mondo Productions, 800-985-8894, \$9.95).

This stunning collection of exotic tales from Ecuador, Africa, North America and India will take you and your child far from home.

Aichele and Armstrong have chosen five stories that reflect courage, forgiveness and generosity, themes that transcend boundaries, to compose what the artists call "the mosaic of humankind." The music and sound effects from each region embellish the beautiful narration of the tales.
